TDS90035   On-wall box for AURUS family

The AURUS on-wall box TDS90035 is to be used for on-wall mounting of the AURUS-family interfaces. In case you have a concrete, marble, etc… wall where you can't (or you are not allowed) to put a standard in-wall box or a flush- wall box, the TDS90035 will offer you the proper design solution.

This plastic wall box has an anthracite (dark- grey) colour, similar to the back of the AURUS.

APPLICATION
Box for on-wall mounting of AURUS family

INSTALLATION
AURUS family

On-wall mounting of AURUS family members.

The TELETASK wall bracket (supplied with the AURUS unit) is to be mounted inside the TDS90035. Follow the instructions. You can connect your AURUS unit with the AUTOBUS (and optional Ethernet cable for AURUS-TFT) in different ways. Cable(s) can enter from the back (if behind the wall). But if the cable(s) are fed through on-wall conduit(s), break-out holes are provided for up to two cable glands (included with the package).

DIMENSIONS
86 W x 86 H x 36 D (mm)

### NET | GROSS WEIGHT
0,055 kg |0,200 kg
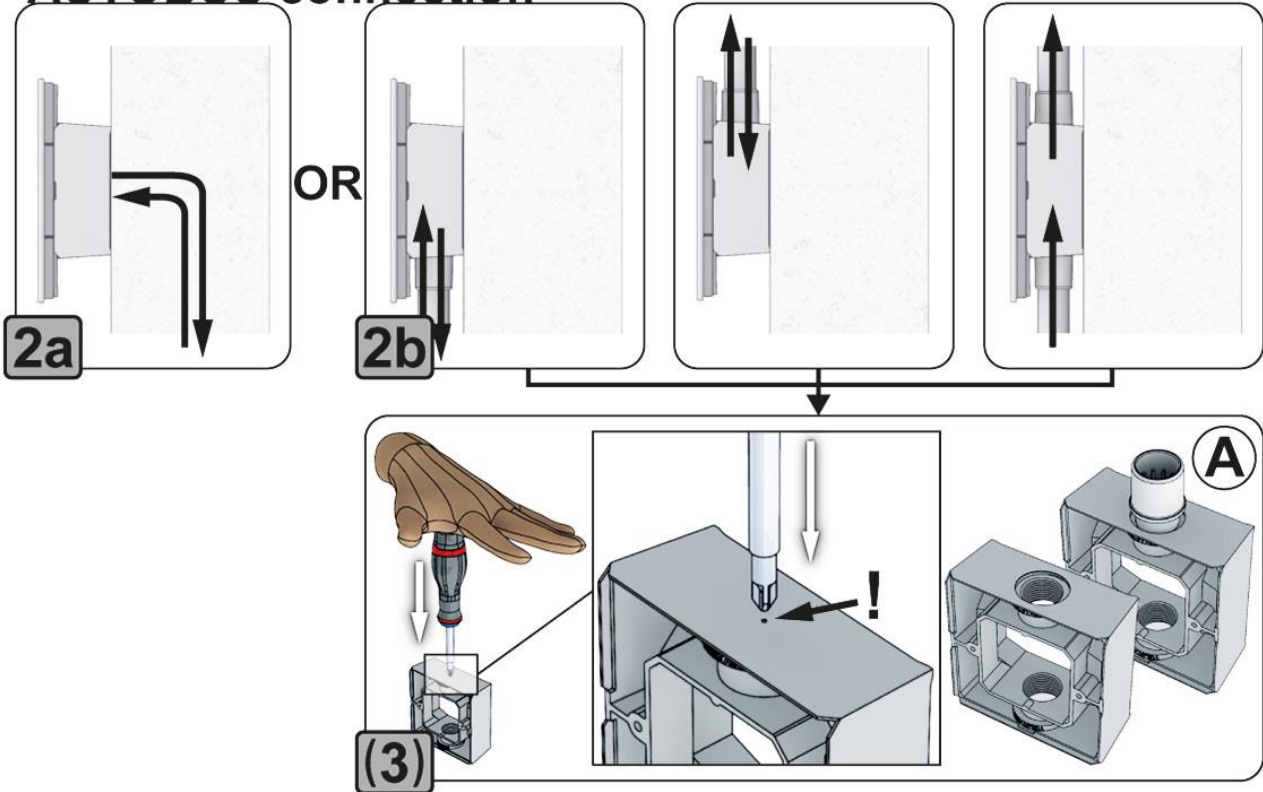

PACKAGING CONTENT
TDS90035 On-wall box
2x cable glands
2x self-tapping screws
